

# **A comparison of waste education in schools and colleges across five European cities**

## **Tables**

Table 2.1: Number of questionnaire responses

Table 3.1: Summary of kerbside waste collection frequency in each Partner region

Table 3.2: % of respondents interested in organising separate waste collection at their school

Table 2.1: Number of questionnaire responses

City	Primary School	High School (College)	Total
Manchester	11	5	16
Hamburg	7	12	19
Tallinn	13	10	23
Bucharest	16	6	22
Zagreb	17	13	30

Table 3.1: Summary of kerbside waste collection frequency in each Partner region

	Bucharest	Hamburg	Manchester	Tallinn	Zagreb
Residual	2 to 3/week	Fortnightly	Fortnightly	1 to 2/week	2/week
Paper/card	-	Monthly	Fortnightly	1 to 2/week	-
Metal/plastic	-	Fortnightly	Fortnightly	-	-
Glass*	-	Monthly	Fortnightly	-	-
Bio waste	-	Fortnightly	Weekly	1 to 2/week	-

\*Glass is collected with metal and plastic in Manchester

Table 3.2: % of respondents interested in organising separate waste collection at their school

	Yes	No	Already in place
Manchester	19	63	19
Hamburg	10	79	11
Tallinn	35	9	44
Bucharest	82	18	0
Zagreb	37	0	63
