The C—Journal of Carbon Research (ISSN 2311-5629) is quite pleased to announce the publication of its 300th article. This milestone is achieved thanks to the support of scientists around the world who have trusted C—Journal of Carbon Research to publish their high-quality research work. We are very appreciative to the authors and recognize their trust considering the many publications options available at this time. The field of carbon research is ever growing, and we will continue to expand into new areas. We look forward to the next milestone and to always increasing the quality of the papers [1–6] at C—Journal of Carbon Research including the publication of timely Special Issues.

Currently, the following Special Issues are open for submission:

- “3D Structure Carbon Materials” (https://www.mdpi.com/journal/carbon/special_issues/3D_structure_carbon_materials)
- “Carbon-Based Electrochemical Devices” (https://www.mdpi.com/journal/carbon/special_issues/carbon_electrochemical_devices)
- “Graphene and Carbon Quantum Dots and Related 2D Quantum Dots” (https://www.mdpi.com/journal/carbon/special_issues/carbon_dots_and_related_van_der_waals_nanostructures)
- “Carbide-Derived Carbons” (https://www.mdpi.com/journal/carbon/special_issues/carbide_derived_carbons)
- “Carbon-Related Nanomaterials in Analytical Nanoscience and Nanotechnology” (https://www.mdpi.com/journal/carbon/special_issues/nanocarbons_in_analytical_science)
- “Carbon and Beyond for Sustainable Energy” (https://www.mdpi.com/journal/carbon/special_issues/carbon_beyond_for_sustainable_energy)
- “Batteries: The New Frontier for Carbon Materials” (https://www.mdpi.com/journal/carbon/special_issues/batteries_frontier_carbons)
- “Young Carbon Scientists” (https://www.mdpi.com/journal/carbon/special_issues/young_carbon_scientists)

Furthermore, C—Journal of Carbon Research has recently established several Topical Collections:

- “Carbon-Based Materials for Hydrogen Production, Storage and Conversion” (https://www.mdpi.com/journal/carbon/special_issues/carbons_for_hydrogen)
- “Carbon-Derived Materials from Bioresources for Advanced Applications” (https://www.mdpi.com/journal/carbon/special_issues/carbon_derived_materials)
- “CO₂ Electrochemical Reduction and Conversion” (https://www.mdpi.com/journal/carbon/special_issues/carbon_dioxide_electro_reduction_conversion)
- “Feature Papers in the Science and Engineering of Carbons” (https://www.mdpi.com/journal/carbon/special_issues/feature_papers_carbons)
