Our question for today!

Given the concern for climate change, sustainability, and net zero how can Doughnut Economics impact responsible leadership in the 21st century?

An **ecological** Question?

Should responsible leaders be concerned about biodiversity loss?

A related **social** question?

Should responsible managers be concerned about climate anxiety among their staff?

How to support staff through climate anxiety

25 Nov 2021 By Nic Marks

With the dust settling on COP26 and the environment crisis hitting the headlines more than ever, businesses have a role to play in allaying employees' concerns, says Nic Marks

An aerial photograph showing a logging operation in a forest. The ground is cleared and brown, with several large stacks of cut logs arranged in neat piles. The surrounding forest is lush green, and a dirt road or path is visible through the trees.

Downscaling the Doughnut to the City

The Thriving Cities Initiative

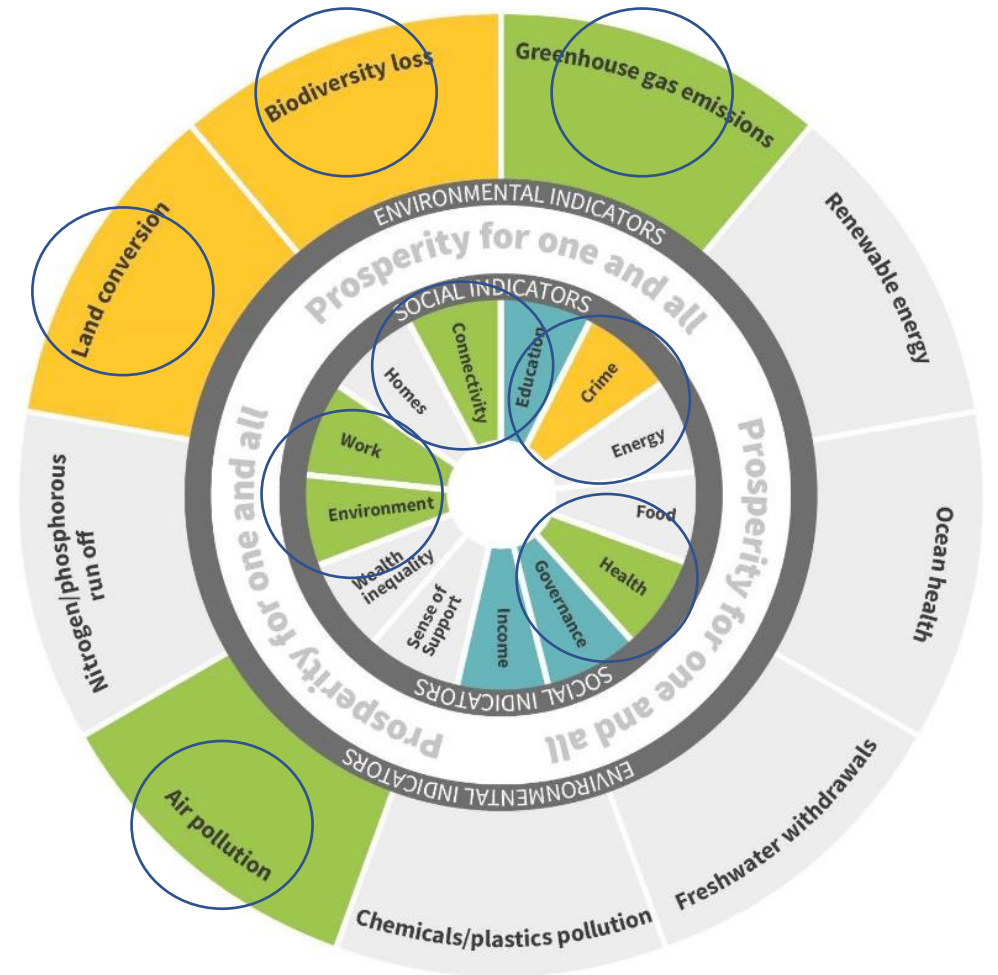

HOW CAN OUR CITY BE A HOME
TO THRIVING PEOPLE IN A THRIVING PLACE,
WHILE RESPECTING THE WELLBEING OF ALL PEOPLE
AND THE HEALTH OF THE WHOLE PLANET?

	SOCIAL		ECOLOGICAL
LOCAL	What would it mean for the people of Amsterdam to thrive?	1 2	What would it mean for Amsterdam to thrive within its natural habitat?
GLOBAL	What would it mean for Amsterdam to respect the wellbeing of people worldwide?	4 3	What would it mean for Amsterdam to respect the health of the whole planet?

In the UK, Cornwall County Council have attempted to adapt *Doughnut Economics* into strategic decision making.

Example of Cornwall Council's decision-making wheel, as applied a new cycling and walking trail project!
